## CAR OWNERSHIP INDEX COVERAGE HIGHLIGHTS

The graphic features large, bold text for the year and title, followed by a play button icon. Below the title is a stylized illustration of a purple pickup truck.

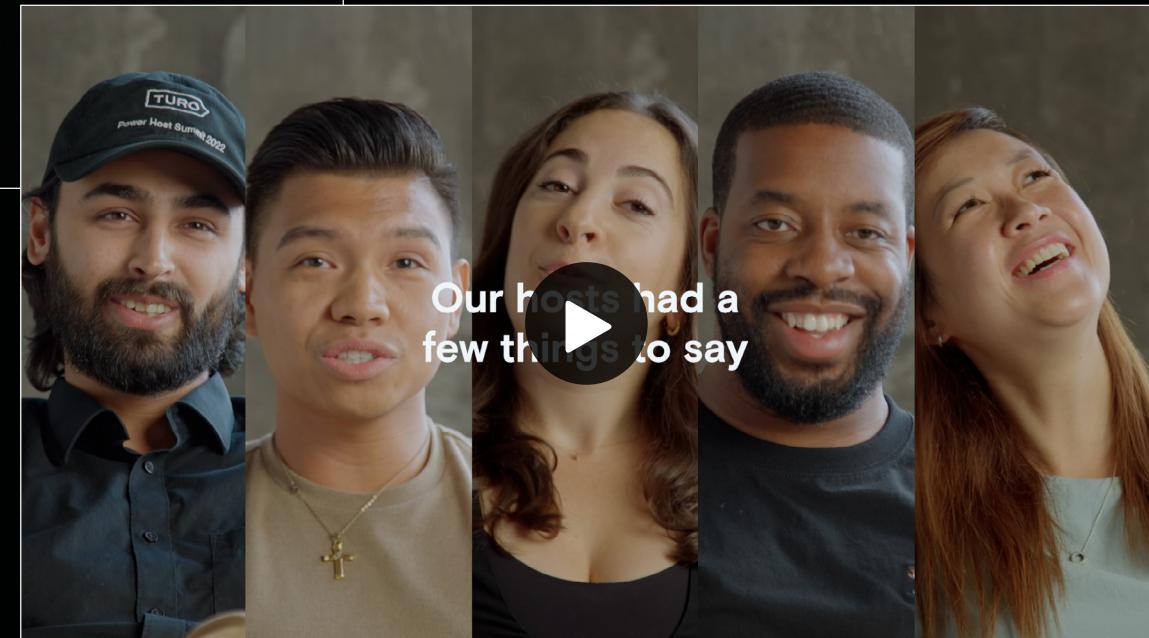

The Car Ownership Index from car-sharing service Turo, released Monday, found 56 per cent of young millennials are less likely to buy or lease a car due to inflation, compared to 46 per cent of the general population.

Inflation has more young Canadians priced out of car ownership: survey

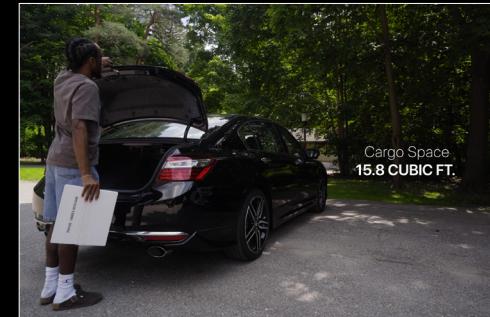

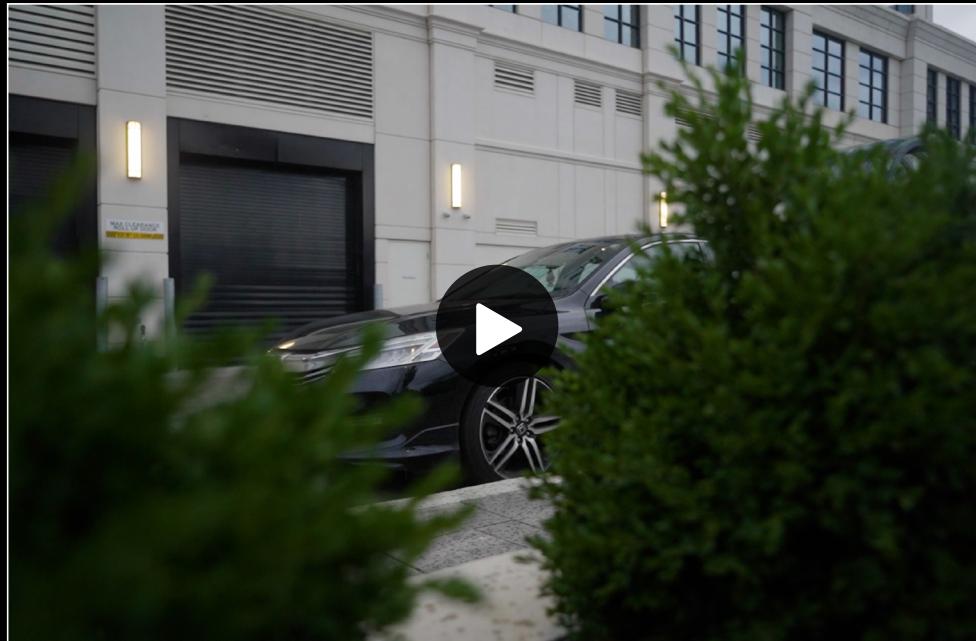

The survey found 29 per cent of Canadians who don't plan to buy or lease an EV won't consider them because of the costs, though 53 per cent of Canadians are considering a hybrid or EV for their next car purchase.
